"Whenever I tell a parent I can give them diapers, there's a sigh of relief, a shout for joy, or endless thank yous."

-AADB Partner Agency

"It's inspiring to me that my school does this (provides diapers) for me. It makes me feel like no one is judging me because I am a young mom and it motivates me to try to finish earning my high school diploma. I would be the first kid to graduate in my family if I can make it and I want to set a good example for my son,"

"Diaper delivery is a great 'icebreaker.' Each time there's an opportunity to connect families with resources, that's an opportunity to reduce stress. Delivering diapers gets my foot in the door and from there, most parents really open up."
